## ALLEGATIONS ON THE COVID-19 HUMAN REMAINS (CARGO)

Our attention is drawn to an online false story regarding the repatriation of human remains through Entebbe airport. The author alleges that Mengo Hospital colluded with A-Plus Funeral Management in smuggling a COVID-19 body into the Country. He falsely claims to have contacted the Hospital Administration for a comment.

We consider the allegations unfounded, alarmist, unprofessional and unfortunate.

Ministry of Health has since come out to issue a statement clearing the air on the matter. We urge the public to disregard the fake news.

Mengo Hospital remains committed to the fight against the COVID-19 pandemic.
